Our Legal Basis for Collecting Personal Data

Whenever we collect Personal Data from you, we may do so on the following legal bases:

1. Your consent to such collection and use;
2. Out of necessity for the performance of an agreement between us and you, such as your agreement to use our services and products;
3. Our legitimate business interest, including but not limited to the following circumstances where collecting or using Personal Data is necessary for:
 - Intra-company transfers for client data for administrative purposes;
 - Product development and enhancement, where the processing enables Rave Mobile Safety to enhance, modify, personalize, or otherwise improve our services and communications for the benefit of our customers, and to better understand how people interact with our Sites;
 - Fraud detection and prevention;
 - Enhancement of our cybersecurity, including improving the security of our network and information systems; and
 - General business operations and diligence;

Provided that, in each circumstance, we will weigh the necessity of our processing for the purpose against your privacy and confidentiality interests, including taking into account your reasonable expectations, the impact of processing, and any safeguards which are or could be put in place. In all circumstances, we will limit such processing for our legitimate business interest to what is necessary for its purposes.

Information We Share

We do not share personal information collected through the Sites with companies, organizations and individuals outside of the Company unless one of the following circumstances applies:

1. **With your consent.** We will share personal data with companies, organizations or individuals outside of Rave Mobile Safety when we have your consent to do so.
2. **Enterprise accounts.** Your employer or school may offer you access to our Services. We will share personal data you provide with your employer or school. Your employer or school can review and manage your use of such enterprise Services.
3. **For external processing.** We provide personal information to our affiliates or other trusted businesses or partners to process it for us, based on our instructions and in compliance with our Privacy Policy and any other appropriate confidentiality and security measures. These third parties include communication service providers, Emergency Service Providers and public safety agencies. Specific examples of permitted disclosure of personal data include:
 1. Your wireless phone number may be submitted to other service providers in order to locate the device during an emergency or transmit messages that you send or receive.

2. In the event an emergency call or other direct communication is placed from your phone or device, and provided that the agency receiving the call uses our Services, your information may be displayed on the answering operator's workstation screen or to emergency responders.
3. In the event a non-9-1-1 call is made to a public safety agency from your phone and is then routed into a 9-1-1 system, if the receiving 9-1-1 agency uses our Services, your information may be displayed on the 9-1-1 operator's workstation screen. In these situations, once information is passed to the local 9-1-1 authorities, we no longer have control over the transmission of the information. It may be conveyed verbally over an unsecured radio or transmitted in some other way to the responding emergency response team or others.
4. In the event an Emergency Service Provider uses The Services database query tools, and your information includes an address within the querying Emergency Service Provider's jurisdiction, and a portion of your information matches the Emergency Service Provider's query criteria, and if you have elected to participate in this portion of the our Services, your information will be displayed in the search results presented to the Emergency Service Provider.

It is our policy to only share Personal Data with contractors, service providers and other third parties who are bound by contractual obligations to keep Personal Data confidential and use it only for the purposes for which we disclose it to them. Under certain circumstances, you may avoid having us share your information with our business partners and vendors by not granting us permission to share your information. Not granting us permission to share your information with our business partners or vendors may limit your access to their services through the Sites. We do not share personal information with third parties for their own marketing purposes.

4. **For Legal Reasons.** We will share Personal Data with companies, organizations or individuals outside of Rave Mobile Safety if we have a good-faith belief that access, use, preservation or disclosure of the information is reasonably necessary to:
 1. meet any applicable law, regulation, legal process or enforceable governmental request.
 2. enforce applicable Terms of Service, including investigation of potential violations.
 3. detect, prevent, or otherwise address fraud, security or technical issues.
 4. protect against harm to the rights, property or safety of Rave Mobile Safety, our Users or the public as required or permitted by law.

We attempt to notify Users about legal demands for their personal data when appropriate in our judgment, unless prohibited by law or court order or when the request is an emergency. We may dispute such demands when we believe, in our discretion, that the requests are overbroad, vague or lack proper authority, but we do not promise to challenge every demand.

5. **Business Transfers.** As we continue to develop our business, we may buy, sell, or share assets in connection with, for example, a merger, acquisition, reorganization, sale of assets, or bankruptcy. In such transactions, Personal Data about our users is often a transferred business asset. In the event that Rave Mobile Safety itself or substantially all of our assets are acquired, Personal Data about our users may be one of the transferred assets.
6. **Aggregate Site Use Information.** We may share aggregate and anonymized/pseudonymized Personal Data to advertisers and other third parties in order to promote or describe use of the Sites.

We do not control such websites and are not responsible for their contents or the privacy policies or other practices of such websites. Our inclusion of links to such websites does not imply any endorsement of the material on such websites or any association with their operators. Further, it is up to the User to take precautions to ensure that whatever links the User selects or software the User downloads (whether from this Site or other websites) is free of such items as viruses, worms, trojan horses, defects and other items of a destructive nature.
